

Please report to PLCOM-San Pedro at 0620 (am). You can wear scrubs or business casual. Dr. Brust asks for closed toed shoes and pants (no dresses). You may accompany him afterward for a teaching session in the doctor's dining room if invited. Text me when you get there so that I know you arrived. Enjoy! Mrs. Moore

DIRECTIONS TO SAN PEDRO HOSPITAL TO OBSERVE ECT

- 1. Take the Harbor Freeway (110) south to the end of the freeway.**
- 2. At the end of the freeway, bear left onto Gaffey Street.**
- 3. After a few blocks you'll notice that the streets are numbered (1st St., 2nd St., 3rd St., etc.) --- go to 7th St. and turn right.**
- 4. Proceed up 7th St. to the hospital --- the address is 1300 West 7th St. You can't miss the hospital --- it is a five story brick building that will be on your right. The sign on the building says "Providence Little Company of Mary Medical Center."**
- 5. On the far side of the hospital, near the statue of St. Peter, turn right onto the hospital grounds at the small sign that says "Main Entrance."**
- 6. Park in the area designated "Visitor Parking." If there is a security person on duty, just tell him that you are a visitor.**
- 7. Enter the hospital building at either of the doors near the statue.**
- 8. Take the elevator opposite the information desk to the second floor.**
- 9. Turn left coming off the elevator and walk down the hall to the nurse's station desk on the left. This is the Outpatient Surgery area.**
- 10. Tell whoever is on duty that you are there to observe ECT with Dr. Brust. They'll direct you to the ECT room.**
- 11. If you get lost anywhere within the hospital, just ask someone to direct you to Outpatient Surgery.**

Phone Numbers:

Dr. Brust's office: 310 832 7943

Outpatient surgery: 310 514 5252
